

STRIKON

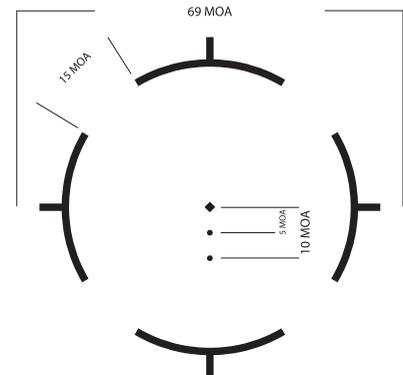

FMP 1x18 Prismatic Sight

Naming Specifics

Reticle Information

Use Case

Short to Medium Range Shooters & Hunters

- Built for shooters who demand the speed of a red dot but the clarity, precision, and dependability of etched-glass optics. It's purpose-designed for duty use, tactical competition, and serious range shooters who can't afford to lose their reticle when batteries die—or their shot when milliseconds matter.
- For law enforcement officers and professional users, the FMP offers a durable, mission-ready alternative to electronic-only optics. Its etched RTR-1 reticle stays visible even with the power off, guaranteeing a usable sight picture in every lighting condition. The automatic brightness control and Shake Awake function ensure that it's always ready the moment you draw your rifle—no fumbling with buttons, no dead-dot surprises during critical operations.
- For competitive shooters and enthusiasts, the FMP gives the crispness and rapid sight alignment of a prismatic optic with the situational awareness of both-eyes-open shooting. The 3.85" eye relief and wide 86.5 ft field of view at 100 yards provides a generous window for fast transitions between targets. It's especially effective in 3-Gun or carbine courses where shooters alternate between speed and accuracy at close and mid-range distances.
- For hunters and outdoor shooters, the Strikon FMP offers rugged reliability with simplicity. The etched reticle eliminates dependency on electronics, making it a field-safe choice for extended hunts where backup batteries and charging options may not be available. The compact, lightweight form and shock-tested 6061 aluminum body means it can withstand rough handling, recoil, and unpredictable weather without compromise.
- The Strikon FMP is for shooters who want an optic that performs when conditions and gear can't be trusted. It's a compact powerhouse built to outlast, outshine, and outperform standard red dots in every measurable way.

Advantages

- **True 1x Prismatic Design** - Provides distortion-free, parallax-free viewing with the precision of an etched reticle for both-eyes-open shooting.
- **RTR-1 Rapid Targeting Reticle** - Designed for quick sight alignment and accurate shot placement across short to medium distances.
- **Daylight Bright Red or Green Illumination** - 12 brightness settings, including 3 night vision-compatible levels, for any lighting environment.
- **Etched Reticle Visibility** - Functions even without power, ensuring continuous usability in critical situations.
- **Shake Awake Technology** - Powers down after 10 minutes of inactivity and reactivates instantly with movement to preserve battery life.
- **Lightweight and Compact** - Weighs only 6.87 oz with mount for improved rifle balance and handling.

STRIKON FMP 1x18 Prismatic Sight

SPECIFICATIONS & FEATURES

SPECIFICATIONS	SM23002 Strikon 1x18
Reticle Name	RTR-1 (Rapid Targeting Reticle)
Reticle	Etched
Reticle Color	Red/Green
Illuminated Reticle (yes/no)	Yes
Illumination Type	LED
Reticle Brightness Settings	12 (9 day/3 NV)
Magnification (x)	1x
Objective Lens Diameter (mm)	18
Eye Relief (in/mm)	3.85 / 97.9
Field of View (angular)	16.4°
Field of View (ft @100yd / m @100m)	86.5 / 28.8
Eyepiece Diameter (in/mm)	1.09 / 27.7
Diopter Adjustment (+/-)	+2 / -2
Mounting Footprint	Aimpoint® Micro
Parallax Setting (yds/m)	50 / 45.7
Adjustment Range W/E (MOA)	120
Adjustment One Click = (MOA)	1
Maximum Caliber	1000G
Battery Type	CR2032
Battery Life (hours)	High (Level 11): 100 hrs - Low (Level 3): 10,000 hrs
Shake Awake (yes/no) / Timing (min)	Yes / 10
Body Material	Aluminum 6061
IP Standard (water rating)	IP67 - Water, Dustproof & Shockproof
Lens Coatings	Fully Multi-coated
Operating Temperature	-22° to 140° F / -30° to 60° C
Dimensions (in/mm) Height with 1.54" Mount	2.42 x 1.73 x 2.80 / 61.4 x 44.0 x 71.3
Weight with 1.54" Mount (oz/g)	6.87 / 194.8

FEATURES

- Aimpoint® Micro Footprint
- Flush Adjustment Turrets
- Fully Multi-Coated Lenses
- Nitrogen-Filled
- 10,000 Hour Battery Life (Lowest Setting)
- IP67 Waterproof & Shockproof
